

Any codebase. Explained in minutes.

Drop a GitHub URL. Get a 3-minute video walkthrough — architecture, key files, data flow, narrated by AI. Built for engineers who don't have days to read code.

01

Paste

Drop any GitHub URL. Public or private with token.

02

Analyze

Claude reads the codebase like a senior engineer.

03

Watch

A polished video with narration, diagrams, walkthroughs.

ABOUT

Phantom is built by Vineet Sista — OSU CS, previously at JPMorgan Chase and VeloQuant.

RepoX is the first product under the Phantom brand. More coming.
